The personality of this highly traditional Swiss brand reflects a symbiosis of design, quality and functionality. **LAUFEN**, the premium brand under the ROCA umbrella, is one of the world's leading manufacturers with a global distribution network.

The company's core competence is its knowledge in the area of sanitary ware manufacturing. Over 125 years, the **LAUFEN**, brand has been using the oldest malleable material known to man to make innovative sanitary products in state-of-the-art plants with legendary Swiss precision. Knowledge of the bathroom as a whole developed from the competence of **LAUFEN**, in ceramics manufacturing, and sophisticated design. What makes **LAUFEN**, products unique at the first glance is that their Swiss design unites two major design trends: emotional Italian design from the south and the northern tradition of design precision and clarity.

For **LAUFEN**, quality has two aspects: manufacturing knowledge and high degree of practical benefit that the finished bathroom affords the customer - which is often not immediately apparent. **LAUFEN**, a Swiss company manufacturing products that allow water, a precious resource, to be used sparingly, demonstrates in this manner a commitment to preserving natural resources and environmentally- friendly production.

From local foundations to a "global player"

When the company **LAUFEN** was founded in Switzerland in 1892, sanitary conditions were well below today's standards and level of convenience - standards to which **LAUFEN**, the only sanitary porcelain manufacturer producing exclusively in Europe, contributed.
