## Retro Patchwork Tile

Italtile Commercial unpacks Ceramic Industries' beautiful, Proudly South African rendition of the classic Patchwork tile.

RETRO is a magnificent remastering of the tile look that has been loved and much sought after for centuries. Based on the ancient art of 'cementine', but remastered with high tech digital inkjet technology, RETRO features a soft, honey-toned pattern on a 600x600 matt, glazed porcelain tile. RETRO offers one face (one pattern) in a shade variance of V3; which means the design and intensity of pigment differs subtly from one tile to another, to recreate the natural appeal of the original 'cementine' artists' brushwork.

It is suitable for floors, which means it can also be successfully used on feature walls. Suitable for medium foot traffic in commercial settings.

This is a tile that will work beautifully with a Natural, Rustic, Urban or Contemporary style.

Italtile has enjoyed a partnership with Ceramic Industries for several years (and acquired a stake in 2017). It's a relationship based on a shared philosophy of sustainability that extends to the support of communities in which we work. The RETRO range thus earns Italtile's LiveGreen logo.

For more information on the RETRO range or Ceramic Industries, kindly contact your Italtile Commercial Agent.
