

# Renovation Inspiration: The Office Kitchen

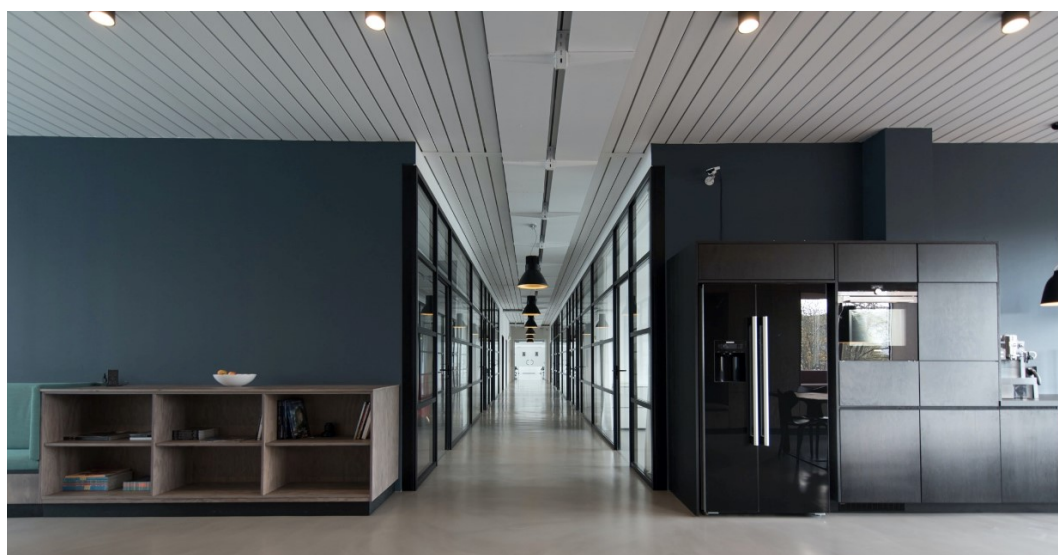

GAUTENG -  
commercialgaut-

The office kitchen has so often been a grudging sort of add-on, offering workers the bare minimum and thus treated with even less respect.

COVID-compliant spaces have become a must-have in the workplace, so now's the time to reimagine the office kitchen, and plan a safer, more hygienic and - while you're about it - more user-friendly space.

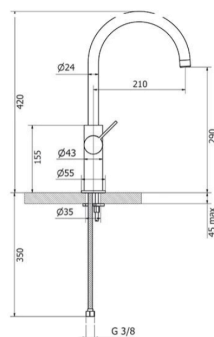

We've curated a selection of high spec kitchen products that are ideal for the modern office kitchen: from mod sinks, to sleek sink mixers and easy-to-clean, eco-chic backsplash tiles.

Each one is designed to meet the requirements of COVID protocols... and exceed the expectations of The Office Coffee Club!
